AMARO JUNO D. ALONZO

Full-Stack & AI Developer

Candaba, Pampanga · 096424907980 · alonzoamarojuno@gmail.com · linkedin.com/in/amaro-juno-alonzo-b7b867330 · github.com/EsBazza

SUMMARY

BSIT student and President's Lister who builds and ships full-stack web apps with Next.js, TypeScript, PostgreSQL and the Gemini API. RAITE 2026 Overall Champion, EduTech Asia 2026 Top 8 finalist (Singapore), and Top 20 in the Philippine Startup Challenge XI Central Luzon regional round. Seeking web developer, full-stack or AI developer roles.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, HTML5, CSS3
Frontend: React, Next.js, Vite, Tailwind CSS
Backend & Databases: Node.js, Spring Boot, Prisma ORM, PostgreSQL, MySQL, Supabase, Firebase
AI & Cloud: Gemini API, AI-assisted development (Claude, Gemini), AWS, Google Cloud, Vercel, Git

PROJECTS & HACKATHONS

PROCTOR.AI – AI exam and anti-cheating platform — Next.js · Prisma · PostgreSQL · Gemini · Google Classroom API
RAITE 2026 Overall Champion · Best Technical Implementation · Best User Experience · PSC XI Regional Top 20

- Gives every student a different but equivalent exam, generated by Gemini from the teacher's uploaded PDFs and notes
- Records 10-second webcam clips of suspected cheating for Gemini Vision to rate, locks the exam on a second strike, and posts exams to Google Classroom

MAPATUNAI – AI public infrastructure transparency platform — Next.js · Prisma · PostgreSQL · Mapbox GL · Gemini
Top 3, Can You HackIT: The IBPAP Challenge

- Maps DPWH projects with contractor records, citizen reports and satellite history, served by a 26-endpoint API
- Built an AI audit where Gemini cross-checks project records, satellite images and citizen reports to flag irregularities

HERITECH – circular marketplace for festival waste — Next.js · Firebase · Gemini · Google Maps · Google Wallet
Top 8 Finalist, EduTech Asia 2026 (Singapore), Planet Protectors Challenge

- Routes festival leftovers to local artisans and gives each finished craft a QR-verifiable record saved to Google Wallet
- Classifies materials from a photo with Gemini, with an on-device Teachable Machine fallback; 61 Vitest unit tests

EVALUATION – UA faculty evaluation system — Next.js · Prisma · PostgreSQL · NextAuth · Gemini

- University-wide portal with UA Google sign-in and role-based access for admins, departments, faculty and students
- Encrypts anonymous responses (AES-256-GCM), blocks duplicates via HMAC, and writes Gemini feedback summaries

RAITE 2026 REGISTRATION PLATFORM – team project — Next.js · Supabase · Prisma · Clerk · Redis

- Registration site for PSITE Region III's RAITE 2026 with bulk CSV imports and 1.2 GB uploads, hosted on a VPS

J1 MOVIES – movie and TV discovery site — Next.js · Tailwind CSS · TMDB API

- Browse, search and filter titles with TMDB data; plays through third-party embedded streams, so no video is stored or hosted

PIXELFORGE AI – AI photo editor, IBM Bob Hackathon — React · TypeScript · Fabric.js · TensorFlow.js

- Browser photo editor with one-click background removal, smart crop suggestions and color palette extraction

EXPERIENCE

Student Assistant – OMISS, University of the Assumption — 3 months

- Helped students connect to the campus Wi-Fi mesh network and troubleshot computer and printer issues
- Assisted office employees with everyday technical tasks

EDUCATION

UNIVERSITY OF THE ASSUMPTION — San Fernando, Pampanga
BS Information Technology — 2023 – Present
President's Lister: 1st Sem 2023–24, 1st & 2nd Sem 2025–26 · Dean's Lister: 1st & 2nd Sem 2024–25
Capstone: UACAP (Unified Access to Clinic Administration Portal), a PhilHealth-integrated clinic EMR
