PROJECTS & HACKATHONS

Proctor.AI – AI exam and anti-cheating platform — Next.js · Prisma · PostgreSQL · Gemini
RAITE 2026 Overall Champion · Best Technical Implementation · Best UX · PSC XI Regional Top 20
- Gives each student a different but equivalent exam, generated by Gemini from class files
- Gemini Vision rates webcam clips of suspected cheating; exams lock on a second strike and post to Google Classroom

MapaTunAI – infrastructure transparency platform — Next.js · Prisma · Mapbox GL · Gemini
Top 3, Can You HackIT: The IBPAP Challenge
- Maps DPWH projects with contractors, citizen reports and satellite history (26-endpoint API)
- Gemini cross-checks records, satellite images and citizen reports to flag irregularities

HeriTech – circular marketplace for festival waste — Next.js · Firebase · Gemini · Google Wallet
Top 8 Finalist, EduTech Asia 2026 (Singapore)
- Routes festival leftovers to artisans; each craft gets a QR-verifiable record in Google Wallet
- Classifies materials from a photo with Gemini, with an on-device fallback model; 61 unit tests

evalUAtion – UA faculty evaluation system — Next.js · Prisma · PostgreSQL · NextAuth
- University-wide portal with UA Google sign-in and role-based access for admins and faculty
- Encrypts anonymous responses (AES-256-GCM) and summarizes faculty feedback with Gemini

RAITE 2026 Registration Platform – team project — Next.js · Supabase · Prisma · Clerk
- Event registration for PSITE Region III with bulk CSV imports and 1.2 GB uploads

J1 Movies – movie and TV discovery site — Next.js · Tailwind CSS · TMDB API
- TMDB-powered search and filters; plays third-party embedded streams, so no video is stored

PixelForge AI – AI photo editor, IBM Bob Hackathon — React · TypeScript · TensorFlow.js
- Browser photo editor with AI background removal, smart cropping and palette extraction
